

NEW GENERATION GENETICS

SELECTION NEVER BETTER

With more new results under our belt, the New Generation lineup continues to lead the way with the largest and most diverse selection of Brown Swiss bulls available on the market.

MORE LEADERS

54BS493 **VITALIS** enters the lineup as the #2 bull for both fat and NM\$. He is the breed leader for fat %, adds protein, longevity, improves DPR and is high for conception too. PROFIT starts with VITALIS!

54BS495 **GOLDRUSH** from the famous "G-family" of the breed. GOLDRUSH debuts near the top for Type at +0.8 and is making the fancy daughters that are now calving in who look great and add milk to the tank!

54BS509 **CADENCE** is the leader of the genomic gems with his outstanding proof and daughters on the farms! CADENCE is the elite package of deep pedigree, high PPR, Show-winning daughters and every other trait as he is one of the breed's most complete bulls.

ROCKSTAR CARTER FERGIE
A 54BS482 CARTER daughter nominated All American Jr. 2-Year-Old 2014.

LEADING TYPE

54BS482 **CARTER** is the new #1 proven bull for Type! Carter added daughters and increased his production to over +800 and is +0.94 UDC. He is now one of the ELITE bulls of the breed. If you have seen one you know why!

54BS462 **AUSTIN** continues to lead the way for Type and is the #2 proven bull at +1.0 with a very favorable udder composite! He is making some the best daughters of any Wonderment son and one of the best to lower SCS.

TWINKLE-HILL CADENCE OAKLEY

DISCLAIMER OF WARRANTY AND LIMITATION OF LIABILITY

Availability of all semen is subject to change without notice. Semen is collected, processed and stored in accordance with sound recognized practices. Neither New Generation Genetics, Inc. (NGG) nor owners of bulls leased to NGG nor its employees or agents shall be liable after delivery for any injury or disease caused to any persons, animals or property through the use or handling of the semen. NGG does not guarantee semen to be free of genetic recessives. NGG does not guarantee the fertility capacity of any semen. No warranty of any kind is inferred except to sell and convey good title. Any other warranty is hereby disclaimed. Should a breach of any NGG warranty be deemed by applicable court of law, the purchaser's exclusive remedy shall be limited to replacement of semen or refund of payment at NGG's option and NGG shall not be liable for any consequential or additional damages or expenses.

G- Indicates Genomic Enhanced Evaluation

GENOMIC DISCOVERY PROGRAM

We need new cow families... this is a common comment from breeders. Finding new cow families has been a priority at NGG since our inception. It was only logical for us to employ genomics to identify the best-of-the-best new families. Over three years ago, we launched what we now call "Genomic Discovery". Since then, we have tested more than 500 females from a vast array of cow families. The results have been incredible. Look inside this catalog, and you will find highly proven bulls such as Carter, Vitalis, Austin and Goldwyn 00 that would never have been brought in without genomics. Further, high-ranking genomic bulls like Dario, Dane, Price, Kobe and Richard are from cow families that "Genomic Discovery" has helped to identify and bring these bulls into our evolving program.

We are just getting started. We continue to seek out the best un-tapped genetics available around the globe, but we need your help. Have a family you think is worthy of AI consideration? Contact us, and if we agree, we will genomic test with you. The best-of-the-best will be contracted and have the opportunity to enter our program. With your help, we can discover the next genetic powerhouse of the breed.
